**HIGH PRESSURE  
DIE CASTING**

OMEN HIGH PRESSURE DIE CASTING (Limited Partnership)

Kibbutz Hatzor 60970 Israel. Tel: +972-8-8579302. Fax: +972-8-8579665

**OMEN HIGH PRESSURE DIE CASTING ENVIRONMENTAL POLICY**

Omen's management is hereby committed to allocating the necessary funds & human resources to comply with the following environmental policy:

- Implementation of the environmental standard ISO 14001.
- Compliance with applicable environmental laws and regulations.
- Establishment of company's goals relating to environmental protection and creation of improvements which insure adherence to these goals.
- Use of environmentally friendly materials as much as possible, and the neutralization/recycling of substances discharged as a result of the manufacturing process.
- Use and development of service systems and production equipment which prevent environmental damage (recycling and separation of sewage / use of air emission filters/ planning the run-off of liquids etc.).
- Monitoring the environmental effect of the production process (analyzing sewage and air emissions etc.)
- Developing a close relationship with the local community including participation in initiatives and contribution to the care of the community and its environment.
- Maintaining avenues of communication: internally by training employees of the company and externally (community / suppliers / customers / authorities) concerning everything that relates to taking care of the environment.
- This policy will be available to all the employees of the factory. All the employees of the company will receive training on this subject.
- This document will be displayed on the central information board in the production hall and in the lobby of the administrative offices for all outside visitors to see.
